Introduction

1. Scope of the Code applies to the Joint Stock Company "Sovereign Wealth Fund "Samruk-Kazyna" (hereinafter – the Fund) and the organizations in which the Fund directly or indirectly owns more than fifty percent of voting shares (interests) (hereinafter - Organizations). For Organizations that have other shareholders (participants) it is recommended to approve the current Code at the Annual General Meeting of shareholders (participants). Holding companies must ensure the implementation of the current Code in their group.

2. The objectives of the current Code are improvement of corporate governance of the Fund and Organizations, provision of the transparency in the governance, confirmation of the commitment of the Fund and Organizations to follow the standards of good corporate governance. The Code consists of two parts: the Basic Principles and Annotations - the rules and clarifications for the implementation of the basic principles.

3. The current Code has been developed in accordance with laws of the Republic of Kazakhstan, internal documents of the Fund, and by taking into account the growing practices of corporate governance in Kazakhstan and in the World, Transformation Program of the Fund approved by the decision of the Board of Directors of the Fund (Minutes #113 dated September 17, 2014). The provisions of the current Code shall be applied with the specifications provided by the laws of the Republic of Kazakhstan.

4. Legal entities in the legal form of a limited liability company must comply with the provisions of the current Code to the extent not different to the Law of the Republic of Kazakhstan "On Limited Liability Companies and Additional Liability Companies."

5. The first two sections of this Code are specific and describe the features of the Fund Management, interaction between the Fund and the Government of the Republic of Kazakhstan and the corporate governance of the Fund and Organizations. Subsequent sections of the Code are applied in the Fund and Organizations with the specifications described in the first two chapters, as well as provided by laws of the Republic of Kazakhstan.

6. The Fund and the Organizations must comply with principles of the current Code. If there is a case of non-compliance with the basic principles, the Organizations indicate in its annual report an explanation of the reasons for non-compliance with each of the principles. The Board of Directors by particular reasons might conclude that certain provisions of this Code are non-applicable or impossible to complete. If a non-conforming with provision of this Code has duration of more than six months, the Organization must notify the Fund and give a corresponding

explanation. The Boards of Directors of the Fund and the Organizations, respectively, shall each be responsible for controlling the execution by the Fund and the Organizations of this Code. Corporate Secretaries will provide monitoring and consultations for the Boards of Directors and the Executive Bodies of the Fund and Organizations on proper compliance with the provisions of Code and prepare annually the report on compliance/non-compliance of its principles and provisions. Then this report is submitted for consideration of the appropriate Committees of the Board of Directors and approval of Board of Directors and is included in the annual report of the Fund or Organization.

7. The requirement for mandatory disclosure in the annual report of the Fund and Organization of information about the facts and reasons for non-compliance with the provisions of this Code, as well as the publication of reports on Sustainable development will come into effect from 1 January 2017.

8. Documents and processes of the Fund and Organizations must be actualized in accordance with the provisions of this Code.

9. Failure to comply with the provisions of current Code should be carefully considered at the meetings of the appropriate Committee and Boards of Directors with appropriate decision-making that aimed at further improvement of the corporate governance in the Fund and Organizations.

10. In addition, the Fund will introduce the Corporate Governance Diagnostic Methodology, by which the compliance of the corporate governance practices of the Fund and Organizations with the provisions of Code will be assessed. Chapter 2. Interaction between the Fund and Organizations. The role of the Fund as a National Holding Company.

1. The corporate governance system in the Fund and Organizations provides due governance and control over the operations of the Fund and Organizations and ensure growth of the long-term value and Sustainable development. The Fund as a national managing holding plays the role of a strategic holding in respect to its Companies. The efficiency, operability and transparency should be the basis for the corporate governance.

2. Corporate governance system is a set of processes which provides control and monitoring of the activities of the Fund and Organizations, as well as the system of relationship between the Executive Body, Board of Directors, shareholders and stakeholders. Competence of authorities and decision-making procedures should be clearly defined and enshrined in the Charter.

Corporate governance system stipulates relationships between:

- 1) Shareholders (participants);
- 2) Board of Directors (Supervisory Board);
- 3) Executive Body;
- 4) Stakeholders;
- 5) other bodies defined according to the Charter.

The Corporate governance system also must provide:

- 1) compliance with the hierarchy of consideration of issues and decision-making procedures;
- 2) clear delineation of powers and responsibility between the authorities, officials and employees;
- 3) timely and qualified decision-making by the bodies of the Fund and Organizations;
- 4) the efficiency of processes in the activities of the Fund and Organizations;
- 5) compliance with the Law, this Code and the internal documents of the Fund and Organizations.

The regulations on the bodies and structural units, as well as job descriptions for the respective positions must be approved in the Fund and Organizations. Compliance with these documents provides consistency and sequence of corporate governance processes.

3. The Fund interacts in management of Companies by implementing the functions of the shareholder/participant, as well as through the Board of Directors, in accordance with the procedure defined in Charters of the Companies and this Code.

The Fund annually directs to the Chairman of the Board of Directors and representatives of the Fund in Board of Directors of the Company the expectations of the shareholder for the coming financial year.

The Fund in the General Meeting of Shareholders shall meet with the members of the Board of Directors of the Companies all voting shares of which are owned by the Fund.

The Boards of Directors of the Companies have full autonomy in decision-making within their competence, established by the Charter of Companies.

The position of the Fund on certain issues is brought through the representatives of the Fund at the Board of Directors of the Company.

According to the Law of the Republic of Kazakhstan “On Sovereign Wealth Fund” in the Company's Charter, all the voting shares of which are owned by the Fund, the matters within the exclusive competence of the General Meeting of shareholders and the Board of Directors, in accordance with the Law "On Joint Stock Companies", can be attributed to the competence of the Board of Directors and the Executive Body of such a company, respectively. In such cases, the authority that has transferred competences to the inferior authority shall monitor the implementation of the delegated competences.

Operations of the Fund on management of Organizations shall be performed in compliance with the Laws of the Republic of Kazakhstan “On Joint Stock Companies, “On Sovereign Wealth Fund” and internal documents regulating management of subsidiary and affiliated organizations.

4. Fund based on discussions with the Companies forms uniform policies for the Companies, approves methodological guidelines and corporate standards for the Organizations.

The decision to use corporate standards in the field of internal audit and internal control system that are approved by the Fund in the Organization will be accepted by the Board of Directors of the Organization considering the compliance of these standards with the specifics of the Organizations.

The Fund shall create a unified policy for the Company, approve methodological recommendations and corporate standards for Organizations in accordance with the law “On Sovereign Wealth Fund”. Such areas include issues of human resources, information technology, investment, innovation, risk management, corporate governance, planning, economics and finance and others. Holding companies can approve uniform policies for their group in areas not covered by the Fund’s standards or complementary/implemented policies and corporate standards of the Fund.

5. The Executive bodies of the Fund and the Executive bodies of the Company shall cooperate in collaboration to ensure that the Development Plans of the Companies which are forwarded to the Company Board of Directors for final

approval are challenging and realistic and that they are in compliance with the Fund's Strategy and Development Plan.

The Executive body of the Fund shall maintain a regular dialogue with the Executive body of the Company on strategy and sustainable development issues. However, the Fund will not interfere with operational (current) issues, which are the responsibility of the Executive body of the Company, unless there are cases resulting to the unfulfilled KPIs set out in the Development Plan.

6. Distribution of net income to the Fund as the Sole Shareholder is in the form of dividends on the basis of a formalized and transparent dividend policy.

7. The governance of Organizations is implemented by the authorities of the Organizations in accordance with the competences and procedures specified by the Charter of the Organizations. This principle also applies to Organizations with several shareholders (participants).

2.5. 8. The Fund, Organizations and their officials shall be responsible for the growth of long-term value and the Sustainable development of the Fund and the Organizations, and respectively for the decisions and actions/omissions taken, according to the procedure established by the law of the Republic of Kazakhstan and internal documents.

The key element of performance evaluation of the Fund, the Organizations and Executive Body is the KPI system. The Fund, through its representatives on the Board of Directors submits to the Companies its expectations, in terms of KPI. The KPI list and targets of the Company are approved by the Board of Directors of the Company.

In order to achieve KPIs, the Companies shall develop appropriate Development Plans.

The achievement of KPIs of the Fund and Organizations is assessed annually by comparison with the approved Development plan. This assessment has the impact on the remuneration of the CEO and members of the Executive Body, taken into account in their re-election and may be the basis for their early removal.

In order to assess the achievement of goals and objectives set out in the development strategy, the KPI are established for Companies through the following processes:

1) the Fund provides to its representatives in the Boards of Directors its expectations on KPIs of the Company for a planned period which will be proposed for consideration of the Board of Directors of the Company;

2) following consideration and discussion, the Board of Directors of the Company approves the list and target KPI values that are communicated to the Executive Body of the Company for the development of relevant Development Plans;

3) in order to achieve KPIs, the Company elaborates the development plan for a five year period in the manner specified in relevant documents of the Fund;

4) the draft Development Plan of the Company after approval by the Executive Body of the Company is entered into the information system of the Fund

for the planning, monitoring and evaluation of activities and submitted for consideration and approval of the Board of Directors;

5) Development Plan of the Company is approved by the Board of Directors of the Company, and the approved version of the Development Plan is also entered in the information system of the Fund for the planning, monitoring and evaluation activities.

Adjustment of Development plans of the Company after their initial approval may be done in the order defined by the corresponding documents of the Fund. The draft Development Plan of the Company and draft adjustments of the approved Development Plan are not agreed by the Fund.

The Executive Body of the Company monitors the implementation of the Development Plan and KPIs of the Company. The results of monitoring and reporting on the performance of the Development plan shall be entered in the information system of the Fund for the planning, monitoring and evaluation activities in the order determined by the relevant documents of the Fund.

9. The Board of Directors of the Holding company must ensure the effectiveness of governance, the growth of long-term value and sustainable development in all legal entities within its group. Results of effective management in the group of the Holding Company must be an increase of operational efficiency, improvement of reporting, improved standards of corporate culture and ethics, greater openness and transparency, risk reduction, proper system of internal control.

Holding companies should implement, maintain a functioning state and continually improve the management system in the group.

The Board of Directors of the Holding company is the body responsible to the shareholders for the effective management and operation of the entire group and making decisions related to the management of the group.

The corporate governance system in the Holding company must provide:

1) a clear system of control in the group, delineation of powers and decision-making process, absence of overlapping of functions and processes;

2) uniform standards, policies and processes, including the definition of the common approaches to planning, monitoring and control, performance evaluation and implementation of corrective actions;

3) access to high quality information on the activities of the group;

4) adequate risk management of the group;

5) ensuring compliance with the requirements established by law of the Republic of Kazakhstan and the documents of the Fund and the Holding Company;

6) coordination of cooperation with stakeholders.

Other possible mechanisms for the group management by the Holding company include the centralization of certain supporting functions (planning, treasury, accounting, information technology, legal support, internal audit and other).

Holding company should ensure a balance between control established by the Holding company in the group, and granting of autonomy in operational decision-

making to the Organizations in order to carry out their activities.

The corporate governance system and decision-making process in the Holding Company should be clearly established and regulated in the Charter and documents in the Holding Company and the Organizations within its group.

Chapter 3. Sustainable Development

1. The Fund and the Organizations recognize the importance of their impact on the economy, environment and society, and, while seeking to growth of the long-term value, should ensure their sustainable development in the long run, by observing a balance of the interests of stakeholders. This principle of responsible, thoughtful and rational interaction with stakeholders will contribute to the successful development of the Fund and Organizations.

“Sustainable development” is the development that meets the needs of the present generation without compromising the ability of future generations to meet their own needs (Report of the World Commission on Environment and Development “Our common future”, August 4, 1987).

“We are not afraid of changes that are taking place in the World under the influence of a prolonged global crisis. We are ready for them. Now our task - keeping everything we have achieved over the years of independence, to continue sustainable development in the XXI Century”. (from Address of the President of the Republic of Kazakhstan Mr. Nursultan Nazarbayev to the People of Kazakhstan "Strategy “Kazakhstan – 2050”, December 12, 2012.

2. The Fund and Organizations should aim at the growth of the long-term value while ensuring their Sustainable Development and observing a balance of the Stakeholders’ interests. The activities in the field of Sustainable Development should correspond to the best international practice.

The Fund and Organizations in course of their activities have an impact on or are affected by stakeholders.

Stakeholders may have both positive and negative impact on the activities of the Fund and Organizations, namely impact on value growth, sustainable development, reputation and image, and creation or reduction of risks. The Fund and Organizations are required to pay significant attention to the proper interaction with Stakeholders.

The Fund and Organizations in determining stakeholders and interaction with them are recommended to use international standards of definition and interaction with Stakeholders (AA 1000 Accountability Principles Standard 2008; AA 1000 Stakeholder Engagement Standard 2011; ISO 26000 Guidance on Social Responsibility; GRI (Global Reporting Initiative) and others).

The list of Stakeholders includes, but not limited to:

3) Transparency – our decisions and actions should be clear and transparent to stakeholders. We timely disclose information provided by the law and our documents, taking into consideration the norms for the protection of confidential information;

4) Ethical behavior - the basis for our decisions and actions are our values such as respect, honesty, openness, teamwork and trust, trustworthiness and fairness;

5) Respect – we respect the rights and interests of the Stakeholders, which arise from the law, signed contracts, or implied within business relations.

6) Justice - our decisions and actions are consistent with the law of the Republic of Kazakhstan and the decisions of the authorities of the Organizations;

7) Respect of human rights - We respect and promote respect of human rights enshrined in the Constitution of the Republic of Kazakhstan and international documents such as the Universal Declaration of Human Rights; we categorically reject and prohibit the use of child labor; our employees are our main value and main resource. The level of their professionalism and security impacts directly on the results of our activity and the value created for investors. Therefore, we are striving to attract on open and transparent basis the professional candidates from the labor market and educate our employees based on the principle of meritocracy; ensure the security and safety of our employees; conduct sanatory programs and provide social

support to employees; establish an effective system of motivation and development of employees; develop the corporate culture;

8) Intolerance to corruption – corruption destroys the value created by our organizations for our shareholders, investors, other Stakeholders, and by society as a whole; we declare intolerance to the corruption in all its manifestations in collaboration with all Stakeholders. Officials and employees involved in corruption affairs are to be dismissed and brought to justice in accordance with the laws; internal control system in the Fund and the Organization should include measures aimed at non-admission, prevention and detection of corruption offenses; the Organizations should develop a dialogue with Stakeholders to increase their awareness in the fight against corruption;

9) Inadmissibility of conflict of interests - serious violations related to the conflicts of interests, could damage the reputation of the Fund and Organizations and undermine their credibility with shareholders and other Stakeholders; personal interests of the executive or employee shall not affect the impartial performance of their official duties, functional liabilities; in relationship with Partners, the Fund and Organizations by relying on the establishment and preservation of fiduciary relationship in which the parties are obliged to act with respect to each other with maximum possible honesty, integrity, fair and loyal, taking actions to prevent, detect and eliminate conflicts of interest;

10) Personal example – each of us every day in our actions, behavior and decision-making contributes to introduction of these principles; the employees and officials who occupying managerial positions by their personal example should motivate the introduction of principles of Sustainable development.

5. The Fund and Organizations should design the management system in the field of Sustainable development, which includes but is not limited to, the following elements:

1) commitment to the principles of Sustainable development at the level of the Board of Directors, the Executive Body and employees;

2) analysis of the internal and external situation on three components (economic, environmental and social issues);

3) identification of risks in the field of sustainable development in social, economic and environmental spheres;

4) building the maps of stakeholders;

5) defining the objectives and KPIs in the field of Sustainable development, the development of an action plan and identification of responsible persons;

6) the integration of Sustainable development into key processes, including risk management, planning, human resources management, investment, accounting, operations, and others, as well as development strategy and decision-making processes;

7) advanced training of officials and employees in the field of Sustainable development;

8) regular monitoring and evaluation of activities in the field of Sustainable development, assessment of the achievement of objectives and KPIs, the adoption of corrective measures, the introduction of a continuous improvement culture.

The Board of Directors and the Executive Body of the Fund and Organizations should ensure the formation of a proper system in the field of Sustainable development and its implementation.

All employees and officials at all levels contribute to Sustainable development.

Holding companies are responsible for implementing the principles of Sustainable development in the whole group.

The Fund and Organizations develop action plans in area of Sustainable Development through:

1) careful, thorough and thoughtful analysis of the current situation on the three main areas - economic, environmental and social, in conducting this analysis the accuracy, timeliness and quality of information play a key role;

2) identification of the risks in the area of Sustainable Development; risks are distributed in compliance with the three areas of the Sustainable development, can also affect related areas and cover other risks. In order to determine risks, the analysis of internal and external factors of impact on the Fund and Organizations is conducted;

3) determination of Stakeholders and their impact on activities;

4) determination of the objectives, as well as possible targets, measures on improvement of the activities of the Organization on three components, the responsible persons, resources required and deadlines;

5) regular monitoring and evaluation of the implementation of the objectives, activities for achievement of targets;

6) systematic and meaningful engagement with Stakeholders, receiving feedback;

7) implementation of the generated plan;

8) continuous monitoring and regular reporting;

9) review and assessment of the plan efficiency, summarizing, and taking corrective and enhancement measures.

When developing an action plan in the area of Sustainable Development, it is recommended to take into account international declarations and standards (OECD Guidelines for Multinational Enterprises, UN Guiding Principles on Business and Human Rights, ISO 26 000 Guidance on Social Responsibility, IFC Sustainability Framework; the Declaration on environment and development, adopted by UN Conference in Rio de Janeiro, June 3-14, 1992; UN Global Compact Principles; and others).

Sustainable development should be integrated in:

1) management system;

2) development strategy;

3) key processes, including risk management, planning (long-term (strategy), medium-term (5-year development plan) and short-term (annual budget) periods), accountability, risk management, HR management, investments, operational activities and other as well as in the decision-making process at all levels - from bodies (General Meeting of shareholders (the Sole Shareholder), Board of Directors, Executive Body), to ordinary employees.

Roles, competences, responsibility of each management body and all the employees for the implementation of the principles of sustainable development should be clearly defined and enshrined in the management system in the area of sustainable development.

The Board of Directors provides strategic guidance and monitors the implementation of sustainable development. The Executive Body develops an appropriate action plan and submits it for consideration to Board of Directors.

For thorough preparation of Sustainable Development issues, it is recommended to establish the Committee or to delegate to the competence of any acting Committee under the Board of Directors, and arrangement of Sustainable Development issues. For example, it can be the Health, Safety and Environment Committee.

Audit Committee shall monitor the risks in the area of Sustainable development, the quality of non-financial information and reporting.

The Executive Body performs proper realization and implementation of the principles, policies, standards and action plan in the Fund and the Organization. For this purpose, it is required to nominate an employee at the management position, who would be responsible for the initiation, coordination and implementation of activities in the area of sustainable development.

All employees, each at its own level, introduce the principles and activities in the area of sustainable development through personal conduct and compliance with relevant policies and standards.

Special educating and training programs in the field of sustainable development should be implemented in the Fund and Organizations. Training should become a permanent feature in the implementation of sustainable development. Officials of the Fund and Organizations should strive to engage employees based on understanding and commitment to the principles of Sustainable development, cultural change and behavior in the performance and execution of responsibilities.

Benefits from introduction of the principles of Sustainable development include:

- 1) attracting investments - in the world practice, while assessing the investment attractiveness, the investors consider efficiency in Sustainable Development;

- 2) increasing management efficiency and minimizing non-financial risks - the integration of environmental and social considerations in the decision-making process allows extending planning horizons and considering more diverse range of risks and

opportunities that creates the preconditions for the sustainable long-term business development;

3) increasing efficiency - introduction of high-performance and resource efficient technologies enables to create innovative products and services while increasing its competitiveness and efficiency;

4) strengthening a reputation - improvement of the corporate image is the most evident result of the activities of the organization in the area of sustainable development that adds value to the brand and creates a credit of trust, as well as have a positive effect on the quality of cooperation with business partners;

5) increasing the loyalty on the part of internal and external Stakeholders - creating attractive working conditions, opportunities for professional growth and career development enables to attract and retain prospective qualified specialists; building up an effective dialogue with Stakeholders helps to build a positive environment around the activities of the Fund and Organizations that contributes to the increased efficiency of its business through the understanding and support of customers, shareholders, investors, public authorities, local communities and non-governmental organizations.

6. The Fund and Companies annually publish report on Sustainable development in order to provide the clarity and transparency of their operations for stakeholders with a view to ensuring the protection of information that constitutes a business, commercial or any other legally protected secrets. The report on Sustainable development is approved by the Board of Directors.

The Fund and Organizations provide the clarity and transparency of their activities for Stakeholders.

The Fund, Companies and Organizations shares of which are listed at the Stock Exchange, annually develop and publish reports on sustainable development with a view to ensuring the protection of information that constitutes business, commercial or any other legally protected secrets.

Reporting on sustainable development is the public presentation of the results of the activities in the area of economic, social and environmental activity aspects management, as well as effects on the interests of Stakeholders.

Information on sustainable development could be provided in the form of a separate report or be a part of an integrated report. It is permitted to Holding Companies to prepare a unified consolidated report for Organizations of its group.

In preparing reporting on the Sustainable development in the form of an integrated report, it should reflect:

- 1) material financial economic and operational results on core types of activities, as well as its economic, environmental and social impact;
- 2) approaches to managing the social, economic and environmental areas of activity;
- 3) strategy and plans for the short, medium and long term perspectives.

In preparing reporting on Sustainable development, it is recommended to be guided by generally accepted standards: International Integrated Reporting Standards (IIRC), Guide for reporting in the area of Sustainable development Global Reporting Initiative (GRI), Standards of series AA1000 Institute of Social and Ethical Accountability.

Reporting on Sustainable development is approved by the Board of Directors and brought to the attention of Stakeholders by posting on the corporate Website and/or delivering it in hard copy.

In order to bring the policy of Sustainable development to the attention of Stakeholders, the Website of the Fund and Organizations is recommended to contain a separate section devoted to this field of activity.

7. The Fund and Organizations should strive to encourage and facilitate the application of the principles of Sustainable development by Business partners.

The Fund and Organizations should take steps to adopt and comply with the principles of Sustainable Development in their relations with Partners.

The Fund and Organizations should discuss the inclusion and compliance with the principles and standards of Sustainable development in the relevant contracts (agreements, treaties) with Partners. It is recommended to take comprehensive actions with Partners to implement the principles and standards of Sustainable development.

If the Fund and the Organization identifies the risks associated with the negative impact on the economy, environment and society, provided by Partners, the Fund and Organizations should take actions aimed at ceasing or preventing such effects

In case of failure to take or improper performance by the Partner of the principles and standards of Sustainable development, the level of importance of this Partner for the Fund and the Organization should be taken into account, and if there are any actions of influence and the possibility of replacing of this Partner.

In the Organizations with the Sole Shareholder (Participant), the General Meeting is not held. Decisions on the issues referred in compliance with the legislation of the Republic of Kazakhstan and the Charter of the Organization to the competence of the General Meetings are taken by such shareholder at his sole discretion and subject to registration in writing.

The Sole Shareholder (Participant) holds meetings with the Board of Directors and the Executive Body (Supervisory Board and/or Executive Body) (hereinafter – Hearing of the Board of Directors) for summarizing activities and decision-making on matters within its competence. The Sole Shareholder (Participant) may also hold regular meetings with the Chairman of the Board of Directors (Supervisory Board and/or Executive Body) to discuss the Organization's activities within its competence.

The procedure of the General Meetings is determined in accordance with the Law “On Joint Stock Companies” (Law of the RK “On Partnerships with Limited and Additional Liability”), the Charter and other internal documents of the Organization regulating the internal activities of the Organization, or by a decision of the General Meetings of the Shareholders (Participants). The date and time of the General Meetings of shareholders should ensure that the meeting is attended by the greatest number of persons entitled to participate in it or all persons in relation to the issues requiring the unanimous decision-making.

The process of considering and adopting amendments to the operations and management of the Organization at the General Meeting of Shareholders (Participants) is made by providing the materials to substantiate such changes. The simplest and non-burdensome procedures for obtaining or learning these materials should be provided.

The information and materials provided to Shareholders (Participants) prior to the General Meetings of Shareholders/Hearings of the Board of Directors and the procedure of their presentation must ensure the fullest possible understanding of the essence of the issues discussed with comprehensive list of clearly formed issues to be discussed, the risks associated with taking (rejection) the decision, the answers to issues of interest, and the opportunity to take informed decisions on the agenda items.

In the case of inclusion in the agenda of the General Meeting of Shareholders (Participants) of the issue on election of members of the Board of Directors, the full information about the candidates for these positions shall be provided in accordance with the requirements of the law, the Charter and internal documents of the Organization. The issues on the agenda should be clear and exclude the possibility of a different interpretation. The agenda shall exclude the issues with the wording "miscellaneous", "other", "different", etc. should be excluded. At the General Meeting of Shareholders (Participants), the organization shall provide a separate decision for each individual issue. Rights of shareholders such as to make proposals on the agenda of the General Meeting of Shareholders (Participants), as well as to demand convening of an extraordinary General Meeting of Shareholders (Participants), should be easy to implement with their clear justification

The necessary organizational and technical conditions ensuring the opportunity for shareholders/participants to ask questions on the agenda and materials should be created during the preparation for the General Meetings/ Hearings of the Board of Directors. The powers of officials, the Corporate Secretary (or person performing his/her functions) and employees of the Organization on interaction with Shareholders (Participants) and investors as well as the procedure for providing responses on their inquiries should be clearly assigned in the Organization.

The Corporate Secretary (or a person performing his/her functions) monitors incoming issues from Shareholders (Participants) and provides answers in terms of procedures for the General Meetings of the Shareholders (Participants), clarifies provisions of the legislation of the Republic of Kazakhstan and documents of the Organization in terms of participation and voting at the General Meetings of the Shareholders (Participants), as well as on other issues, if defined in the Organization's internal documents.

The Companies the shares of which are listed at the Stock Exchange are recommended to set up special departments on work with investors, to communicate with investors, to ensure timely and quality provision of answers to issues of the shareholders.

The methods of informing about the General Meetings of the Shareholders (Participants) must ensure timely notification of all Shareholders (Participants) in compliance with law of the Republic of Kazakhstan. If required, the notification is duplicated, and different notification methods are used, including the corporate website of the Organization. In order to provide information simultaneously to all Shareholders (Participants) on the Organization's activities to ensure fair treatment, the Shareholders (Participants) determine the mass media.

Informational materials distributed before the General Meetings of the Shareholders (Participants) should be systematized according to the agenda.

The information disclosure requirements should not impose undue administrative burden or unnecessary expenses on the Organization

The related materials on the agenda of the General Meetings of the Shareholders (Participants) and, given the confidentiality protection, should be posted on the Organization's website indicating contact information of the persons responsible for communicating with Shareholders (Participants) and investors (phone, e-mail).

The process of voting at the General Meeting of the Shareholders (Participants) should be simplest and convenient for the Shareholder (Participant) using all possible methods of voting taking into consideration the provisions of the Charter of the Organization.

The procedure of the General Meeting of the Shareholder (Participant) provides equal opportunity to all Shareholders (Participants) in exercising rights to participate in the General Meeting. The Shareholder (Participant) may vote at the General Meeting that is held in the in-present manner, personally or impersonal presence (by power of attorney issued by the Shareholder (Participant) to its representative). The power of attorney is not required to participate at the General Meeting of the Shareholders (Participants), and voting on the issues for the person who has the right to act without the power of attorney on behalf of the shareholder or represent its interests, in compliance with the laws of the Republic of Kazakhstan, or the contract.

The Organization must develop the Regulations of the General Meeting of the Shareholders (Participants), which should define the procedure of the General Meetings of the Shareholders (Participants), providing for adequate discussion of the agenda items and decision-making, speech of officials and etc.

The significance of the General Meeting of Shareholders (Participants) of the Organization suggests mandatory participation (in case of invitations) of all officials involved in the management of the Organization.

Registration time should be sufficient to ensure registration of all shareholders (or their representatives), the shareholders with no registration are not counted in the quorum and may not participate in the voting.

The procedure for collecting and counting the votes should be simple and transparent; the shareholders have to be sure to exclude the possibility of a distortion of the voting results. The organization shall ensure that the voices were recorded and filed properly.

The Chairman of the General Meeting of the Shareholders (Participants) should aim to ensure that Shareholders (Participants) received answers to all the important issues directly at the General Meeting. If the complexity of the issues prevents from answering them immediately, the person(s) to which they are addressed shall provide written answers to the issues as soon as possible after the conclusion of the General Meeting of the Shareholders (Participants)..

In case of acquisition of shares (interest) in the Organizations by institutional investors in order to provide stability and sustainability of Organizations, the institutional investors as the authorized persons should disclose their policy of corporate governance and regulation to perform investment activities by them, including existing decision-making procedures in the investor's company

The institutional investors as the authorized persons should report on how they solve significant conflicts of interest that may affect the property rights in the implementation of their investment.

The institutional investor means a legal entity that attracts funds for investment in compliance with the law of the Republic of Kazakhstan, for example, large financial institutions, accumulating surplus funds of the population, companies or enterprises for further investment in various financial instruments (insurance and pension funds, investment companies)

The Organization must have transparent procedure for the election and the establishment of remuneration of the Board of Directors (Supervisory Board and/or Executive Body) approved by the General Meeting of the Shareholders (Sole Shareholder/Participant (Sole Participant)). The election of the composition of the Board of Directors (Supervisory Board and/or Executive Body) (Supervisory Board and/or Executive Body) is performed in the order determined by the law of the Republic of Kazakhstan, the Charter and internal documents of the Organization and this Code.

The issues of election, re-election, composition, term of office, termination of powers, size and terms of remuneration and assessment of Directors are regulated by Section 5 of this Code.

The clear and transparent mechanism for determining the amount and payment of dividends must be defined for the purpose of effective distribution of profits in the Organization.

Shareholders (Participants) should have the access to the information about the conditions and order for payment of dividends and reliable information on the financial state of the Organization in payment of dividends. In this case, the dividend policy must be approved at the General Meeting of Shareholders (Sole Shareholder)/Participants (Sole Participant) providing the access to all the Shareholders /Participants. The Holding company should have the unified dividend policy developed taking into account the specific presence of the group with several Shareholders/Participants in the organizations. Organizations with several Shareholders/Participants may adopt another dividend policy approved at General Meeting of Shareholders (Participants).

Distribution of net profit and dividend payment by the Companies, more than fifty percent of shares (interest) of which is owned by the Fund on the right of property or trust management, is performed in compliance with the dividend policy of the Fund.

The dividend policy defines the principles by which the Board of Directors (Supervisory Board and/or Executive Body) is guided in the preparation of proposals to the Shareholders (participants) concerning the distribution of net income of the Organization for the last financial year. The dividend policy is based on the following principles:

- 1) safeguarding interests of Shareholders (Participants);
- 2) increasing long-term value of the Organization;
- 3) ensuring the financial stability of the Organization;
- 4) providing financing of the Organization, including the funding of investment projects implemented at the expense of the Organization;
- 5) transparency of the mechanism for determining the amount of dividends;
- 6) balance of short-term (revenue) and long-term (development of the Organization) interests of Shareholders (Participants).

The calculation of the size of dividends shall be based on the amount of the Organization's net profit as reported in the audited annual financial statements of the Organization prepared in compliance with the laws of the Republic of Kazakhstan on Accounting and Financial Statements and international financial reporting standards. In case of payment of dividends on ordinary shares following the quarter or semester or the distribution of retained earnings of last years and in specific cases, the

dividends may be determined at the General Meeting of Shareholders (the Sole Shareholder) in special circumstances, when considering the issue of approval of profit distribution for the relevant periods.

To take a decision on payment of dividends, the Board of Directors (Supervisory Board or Executive Body) submits proposals on the distribution of net profit of the Organization for the expired financial year and the size of dividend for the year per ordinary share of the Organization for consideration of the General Meeting of the Shareholders (the Sole Shareholder/Participant (the Sole Participant)).

Dividends shall be paid on the date established by the decision of the General Meeting of Shareholders (the Sole Shareholder/Participant (the Sole Participant)).

3. In case of presence of several Shareholders (Participants) in the Organization, including minority Shareholders (Participants), the corporate governance system must ensure fair treatment of all Shareholders (Participants) and full realization of their rights, which also should be reflected in the Charter of the Organization.

Ensuring equal and fair treatment to all Shareholders (Participants) affects the reputation of the Organization, its investment attractiveness and promotes the Organization's value.

The order and procedures of General Meetings of Shareholders / Participants should provide for equal treatment to all Shareholders (Participants). The corporate procedures must not unreasonably complicate or burden with costs the voting process.

Should the Organization have a shareholder who owns fifty percent or more of the voting shares (interests) or who has the right to determine the decisions by virtue of agreements concluded with the Organization and/or other Shareholders (Participants), redistribution of finance in favor of such shareholder (Participant) must be performed by dividend payment. If there are any other mechanisms of redistribution of funds of the Organization to the Shareholder (Participant), who owns fifty percent or more of the voting shares (interests), they must be enshrined in the documents of the Organization and disclosed to all Shareholders

The Organization must disclose information of any forms and conditions for cooperation, agreements, partnership with the Government and public authorities to the Shareholders (Participants) and investors.

Holding companies can use this process in the Group.

In Organizations with several shareholders, the process of Board members and Chairman's election shall be determined according to the Law of the Republic of Kazakhstan "On Joint Stock Companies" and the Charter of the Organization. These organizations are recommended to involve the Nomination and Remuneration Committee of the Board of the Organization in determination of the composition, required skills and competencies needed for the Board of Directors and candidates to the Board of Directors.

The independent directors are elected to the Board of Directors. An independent director is a person who has sufficient expertise and autonomy to make independent and objective decisions, free from the influence of individual shareholders, the Executive Body and other Stakeholders.

The requirements for independent directors are established in accordance with the laws of the Republic of Kazakhstan and the Charter of the Organization

Independent directors should actively participate in the discussion of issues where there may be a conflict of interest (preparation of financial and non-financial statements, transactions in respect of which there is an interest, the nomination of candidates for the Executive Body, the establishment of remuneration to the members of the Executive Body). Independent directors are elected Chairpersons of key committees of the Board of Directors - for audit, appointments and remuneration, other committees are also recommended their election as the Chairpersons.

An independent director should monitor the status of a possible loss of independence and notify in advance the Chairman of the Board of Directors of existence of such situations. In the event of circumstances affecting the independence of the members of the Board of Directors, the Chairman of the Board of Directors

shall forthwith make this information available to the shareholders for a corresponding decision.

The Fund and Organization must have succession plans of appointments to the Board of Directors in order to maintain business continuity and progressive renewal of the Board of Directors.

7. The Board of Directors approves the induction program for newly elected members of the Board of Directors and a professional development program for each member of the Board of Directors. Corporate Secretary shall ensure the implementation of this program.

Newly elected members of the Board of Directors after their appointment take an induction program. In the process of induction, members of the Board of Directors learn their rights and responsibilities, key aspects of the activities and documents of the Fund and the Organization, including those that are associated with the greatest risks.

8. Chairman of the Board of Directors is responsible for overall management of the Board of Directors, ensuring the full and effective performance of its activities and in establishing a constructive dialogue with members of the Board of Directors, shareholders and the Executive Body.

9. The role and functions of the Chairman of the Board of Directors and CEO of the Executive Body shall be clearly separated and fixed in the Charter of the Organization, Regulations of the Board of Directors and Executive body.

Chairman of the Board of Directors should seek to create a unified team of professionals that are configured on the growth of long-term value and sustainable development of the Organization, who are able to promptly and with due professional care respond to internal and external challenges.

In order to perform the role of Chairman of the Board of Directors, the Chairman in addition to his professional qualifications and experience, must have special skills, such as leadership, ability to motivate, understand different perspectives and approaches and the skills to resolve conflicts.

15. Roles and functions of the Chairman of the Board of Directors and CEO of the Executive Body of the Organization should be clearly defined and enshrined in the Charter. CEO of the Executive Body will not be elected as the Chairman of the Board of Directors.

Key functions of the Chairman of the Board of Directors include:

1) planning of the meetings of the Board of Directors and the formation of the agenda;

2) ensuring the timely receipt by the members of the Board of Directors of the full and relevant information for decision-making;

3) ensuring concentration of the Board of Directors attention on consideration of strategic issues and minimizing issues of current (operating) nature to be considered by the Board of Directors;

4) maximizing the effectiveness of the Board of Directors meetings through the allocation of sufficient time for discussion, a thorough and comprehensive review of issues on the agenda, encouraging open debate and the achievement of harmonized solutions;

5) building the proper communication and interaction with shareholders, including organization of the consultations with major shareholders when making key strategic decisions;

6) ensuring monitoring and supervision of proper execution of decisions of the Board of Directors and the General Meeting of Shareholders (the Sole Shareholder);

7) in the case of corporate conflicts, taking measures to address them and to minimize their negative impact on the operations of the Organization, and timely informing the major Shareholders (the Sole Shareholder) in case of failing to address such situations on its own.

Key functions of the Senior Independent Director include:

1) acting as an advisor to the Chairman of the Board of Directors and supporting him/her in informing of objectives determined by him;

2) assessment of the activity of the Chairman of the Board of Directors;

3) planning of succession of the Chairman of the Board of Directors;

4) in case of disagreement between Shareholders, the Executive body, the Chairman of the Board of Directors and other directors, acting as a mediator in addressing disagreements.

10. The level of remuneration of Board of Directors members should be sufficient to attract, retain and motivate each member of the Board of Directors at the level required for the successful management of the Fund and the Organization. The establishment of the remuneration for member of the Board of Directors should be made in accordance with the methodology developed by the Fund. Additionally the expected positive effect to the Organization of participation in the Board of Directors of particular member should be taken into account. In Organizations with several shareholders the relevant rules of the remuneration of members of the Board of Directors are developed based on the methodology of the Fund and approved by the General Meeting of Shareholders. The Nomination and Remuneration Committee submits its proposals related to size of the remuneration of candidates for independent directors.

No person shall be involved into decision making related to his (her) own remuneration.

The remuneration should fairly reflect expected contribution of the member of the Board of Directors in enhancing performance of the Board of Directors and activities of the Organization.

In establishing level of remuneration, the liabilities of the members of the Board of Directors, scale of the Organization's activity, long-term objectives and tasks that are determined by strategy, complexity of the issues under consideration by

the Board of Directors, the remuneration level in similar companies (benchmarking, remuneration review) should be taken into consideration.

Members of the Board of Directors are typically paid a fixed annual remuneration, as well as additional compensation for the chairmanship in the Board of Directors, participation, and the chairmanship in the committees of the Board of Directors. The remuneration of members of the Board of Directors shall not include options or other items related to the performance of the Organization.

The establishment of the remuneration for member of the Board of Directors should be made in accordance with the methodology developed by the Fund. Additionally, the expected positive effect to the Organization of participation in the Board of Directors of particular member should be taken into account. This methodology shall be discussed with at least one member of the Remuneration and Nomination Committee of the Board of the Fund.

In Organizations with several shareholders, the relevant rules of the remuneration of members of the Board of Directors are developed based on the methodology of the Fund and approved by the General Meeting of Shareholders.

The General Meeting of Shareholders (the Sole Shareholder) of the Organization determines the size and terms of remuneration and compensations of expenses to member(s) of the Board of Directors of the Organization.

11. Committees of the Board of Directors promote deep and careful consideration of matters within the competence of the Board of Directors and increase in the quality of made decisions, in particular in areas such as audit, risk management, proper and effective application of the Rules of procurement of goods, works and services of the Fund and the Organization, appointment and remuneration of members of the Board of Directors and the Executive Body, Sustainable development, including security and safety of work and the environment. The existence of committees shall not relieve the Board of Directors from liability for the decisions taken within the competence of the Board of Directors.

The committees are created to carry out a detailed analysis and development of recommendations on the most important range of issues prior to their consideration by the Board of Directors. The final decision on matters considered by the Committee is adopted by the Board of Directors.

The Board of Directors decides on the establishment of committees, determines the composition of the Committees, the terms and powers.

The committees are composed of members of the Board of Directors that have the necessary professional knowledge, competencies and skills to serve on the committee. The presence of potential conflicts of interest must be taken into account in the composition of committees. The Chairpersons of the committees in addition to professional competences must have organizational and leadership skills, with good communication skills for the effective organization of the committee's activity.

The committees should be mandatorily established under the Board of Directors; their competence includes consideration of the issues on audit, risk management, nomination and remuneration issues. In organizations, which operations involve risks of technological disasters (e.g. industrial companies, air and rail transportation) should set up committees on safety and environmental protection. In order to improve the efficiency of investment decisions, it is recommended to include in the competence of one of the committees of the Board of Directors the issues related to the investment activities of the Organization, the consideration of which is the responsibility of the Board of Directors. Depending on the composition, size, and current tasks of the Board of Directors, other activities of the Committee may be provided on the strategy, investment and other issues. The composition of the committee will be composed of at least 3 people.

Independent directors enter the Audit Committee. The members of the Audit Committee should have in-depth knowledge and practical experience in the field of accounting and auditing, risk management and internal control. Chairman of the Audit Committee is an independent director. Basic functions of the audit committee include issues of internal and external audit, financial reporting, internal control and risk management, compliance with law of the Republic of Kazakhstan, internal documents and other issues on behalf of the Board of Directors.

The Nomination and Remuneration Committee comprises the majority of independent directors in order to develop objective and independent decisions and to avoid the influence of stakeholders (shareholders' representatives, the CEO of the Executive Body, employees, and other persons) in the judgment of committee members.

Members of the Committee should have in-depth knowledge and practical experience in human resource management and performance assessment, as well as in the field of corporate governance. Chairman of the Committee is an independent director. Basic functions of the Committee include the appointment, motivational KPIs, performance assessment, compensation and succession planning of the director and the member of the Executive Body, the issues of appointment and remuneration of the Corporate Secretary, as well as participation in the consideration of these issues in relation to the composition of the Board of Directors, in case of the provision of such powers by the General Meeting of Shareholders (the Sole Shareholder). In this case, members of the Nomination and Remuneration Committee should prevent the situation with a conflict of interests and not participate in consideration of the issues of their own appointment and/or remuneration.

The meetings of committees are attended by members of those committees only. The presence of other parties is allowed only via the invitation of the committee. If necessary, committees may invite experts and consultants.

The functions, powers, composition and organizational process of committees shall be governed by the relevant provisions and approved by the Board of Directors. 8) rendering methodical and practical support to subsidiary organizations in the field of risk management and internal control.

The chief supervising the function of risk management and internal control is recommended not to be a risk owner that provides his independence and objectiveness. Combination of the functions on risk management and internal control with the functions associated with economic planning, corporate finance, treasury, taking investment decisions is prohibited. Combination with other functions is permissible, if there is no a material conflict of interests.

4. The system of risk management and internal control of the Fund and the Organizations must be based on a strong culture – led by the Executive body - of risk management that provides mandatory procedures for the identification, assessment and monitoring of all significant risks, and takes timely and appropriate measures to reduce the risks that may affect the achievement of strategic objectives, implementation of operational targets, and the company's reputation.

The procedures on risk management must ensure fast response to the new risks, their clear identification and determination of risk owners. In case of any unforeseen changes in the competitive or economic environment of the Fund and Organizations, an urgent reassessment of the risk map and its compliance with risk appetite should be done.

The Board of Directors shall approve an overall level of risk appetite and tolerance levels in relation to the key risks, which should be enshrined in internal documents of the company.

In approving the risk appetite, it is necessary, *inter alia*, to analyze the extent of loss affection (equal to the risk appetite) on financial results of the company (for example, annual income).

Tolerance levels on key risks are revised in case of significant events. In addition, the limits restricting risks in routine activities should be established.

Identification and assessment of risks, which should be reflected in the risk register, risk map, action plan on risk response (process improvement, strategy of minimizing), approved by the Board of Directors, shall be carried out on an annual basis for a consistent and clear understanding of the risks inherent in the Fund and Organizations.

Assessment of the risks performed should lead to measurable indicators in order to allow assessment of the risks' compliance with approved risk appetite and impact of the risks on implementation of the development strategy of the Fund and Organization.

The Board of Directors in considering risk register and risk map should be sure that they included risks that actually may affect strategic tasks, and in considering of action plan on risk response – be sure in usefulness of the events.

Employees of the Fund and Organizations work with risks on a day-to-day

basis, manage them and monitor their potential effect in area of their functional liabilities.

Information about risks should be an integral part of the managerial statement. The Board of Directors and the Executive Body of the company should obtain information about key risks, their analysis in terms of impact on the strategy and business plans on a regular basis.

Approval of the quarterly consolidated risk reports should be assigned to the Board of Directors.

5. The Fund and Organizations should develop, approve, formalize and document control procedures in three key areas: operating activities, preparation of financial statements and compliance with laws of the Republic of Kazakhstan and internal documents.

Control procedures are the written system of events and actions to ensure effective internal control over implementation of the objectives, tasks and plans of the company, determination and carrying out irregular operations, as well as avoiding, limiting and preventing risks and possible illegal actions on the part of the executives and employees of the company.

Control procedures should be implemented at all levels of management and be observed by all employees and bodies of the Fund and Organization.

Control procedures should cover three key areas: operating activities, preparation of financial statements and observation of the requirements of the law of the Republic of Kazakhstan and internal documents and be aimed at:

- 1) decreasing the probability of risks occurrence;
- 2) preventing of mistakes and/or determining mistakes upon occurrence;
- 3) revealing and removing the duplicating and odd operations;
- 4) determining weaknesses and areas to be improved;
- 5) further improvement of the internal control system.

Introduction of control procedures provides the development/actualization of charts by business processes indicating risks of process level and control procedures, development/actualization of risk matrix and controls over business processes, testing the control procedures and assessment of their performance, forming of action plan on further improvement of the internal control system.

The responsibility for approval of control procedures is assigned depending on nature and significance of the risk in which relation the control procedures are established.

6. Transparent principles and approaches in the field of risk management and internal control, the practice of training employees and officials about the risk management system, as well as the process of documentation and timely communication of necessary information to officials should be established in the Fund and Organizations.

The knowledge of risk management system should be freely available to all its employees and executives who should understand principles and approaches in

area of risk management and internal control, have a notion about adopted best practices in this area.

Employees of the Fund and Organizations as well as when hired for work, should pass training/induction training on annual basis to familiarize with risk management and internal control system adopted. Testing knowledge should be carried out following such training.

Safe, confidential and available method (hotline) should be arranged within risk management and internal control system to inform the Board of Directors (Audit Committee) and Internal Audit unit about facts of violation of the law of the Republic of Kazakhstan, internal procedures, Code of business conduct by any of its employee and executives.

7. The Board of Directors of the Fund and Organizations are required to take relevant actions in order to ensure that existing risk management and internal control system complies with principles and approaches to its arrangement defined by the Board of Directors and works effectively. Risks reports should be received and fully discussed by the Board of Directors at least once in the quarter.

The Board of Directors in cooperation with the Audit Committee are responsible for annual assessment of risk management and internal control system's efficiency. The Board of Directors shall form its own opinion on its effectiveness after proper and in-depth study based on the reports, information and guarantees communicated to it by Internal Audit unit or external expert, Audit Committee and Executive Body.

The Board of Directors shall consider the issue of organization, functioning and effectiveness of risk management and internal control system at least once a year, and, if necessary, give recommendations on its improvement. Information on results of the consideration of the issues of internal control system efficiency by the Board of Directors is presented to the shareholders (participants) in the annual report.

8. The IAS must be established in the Fund and Organizations for a systematic independent evaluation of the reliability and effectiveness of risk management and internal control system as well as corporate governance practices.

9. The internal audit in the Fund and Organizations should be carried out by establishment of a separate structural unit of the IAS (in the limited liability partnerships, the internal audit function may be assigned to the Audit Commission/auditor, accountable to the Supervisory Board, in the absence of other mechanisms. At that, the purpose, functions and tasks of the Audit Commission/Auditor, the order of its interaction with the bodies of the Organization should be consider the principles set out in this Code in relation to the internal audit service). The goals, authority and responsibility of the IAS, qualification requirements (requirements for the professionalism of internal auditors) must be defined in the internal document of company (the Regulation on the IAS). Regulation on the IAS must be developed and approved in accordance with International professional standards of internal audit and corporate standards of the Fund in

internal audit. The responsibility of the Organization's Board of Directors is to insure full compliance of the Regulation on the IAS with the specific business needs of Organizations.

The following is determined and enshrined in the on the IAS:

- 1) commitment to the principles and regulations adopted by the Institute of Internal Auditors;
- 2) status, objectives and tasks of the internal audit of the company;
- 3) conditions of ensuring independence, objectiveness and professionalism of the IAS in order to achieve objectives and tasks of the internal audit and effective performance of the functions and liabilities by the IAS;
- 4) qualification requirements for the Head and employees of the IAS;
- 5) the volume and content of the internal audit activity;
- 6) right of access to the documentation, employees and material assets when implementing of relevant tasks;
- 7) procedure of interaction of the IAS with the Board of Directors and Executive Body and reporting to the Audit Committee and the Board of Directors.

To ensure effective internal audit in the Organizations, the Fund performs a methodological provision of the internal audit through approval of corporate standards and methodic recommendations, regulating the issues of establishing and activities of the IAS of the Organizations

The Internal Audit Service should strictly follow the requirements of the Standards for the professionalism of internal auditors requiring that internal auditors should possess the knowledge, skills, and other competencies needed to perform their duties. To this end, the qualification requirements for Head and employees of the IAS, including the requirements in part of the professional knowledge and skills, work experience, leadership experience (for chiefs), and the requirements in part of additional specialized training, confirmed by international certificates) are established within the corporate standards of the Fund in addition to the general principles of activity (Internal auditors are encouraged to demonstrate their professionalism by obtaining appropriate professional certifications and qualifications, such as "Certified Internal Auditor» (CIA) and other certificates offered by the International Institute of Internal Auditors and other professional organizations).

10. In order to ensure the independence and objectivity of the internal audit, the IAS should be organizationally and functionally subordinated to the Board of Directors. The Board of Directors makes decisions on approval of action plans and strategies of the IAS, IAS budget, determines the IAS composition, size and terms of salary payments, remuneration of its staff.

Organizational subordination and functional subordination of the IAS to the Board of Directors means:

- 1) approval of the regulations and other policies in area of internal audit, regulating objectives, tasks, functions and order of activities of the IAS by Board of Directors (preliminary consideration by the Audit Committee);

2) approval of the risk-oriented annual audit plan by the Board of Directors (preliminary consideration by the Audit Committee);

3) submission of quarterly and annual reports on implementation of the annual audit plan and other information about activities of internal audit to the Board of Directors (Audit Committee);

5) approval of the IAS's budget by the Board of Directors (Audit Committee);

6) consideration of significant limitations of the authorities of IAS or other limitations that may adversely affect implementation of internal audit by the Board of Directors (Audit Committee).

11. The Head of the IAS should develop internal documents regulating activities of the unit based on corporate standards of the Fund in the field of internal audit and ensures their review and approval by the Audit Committee and the Board of Directors.

Internal documents regulating activities of the IAS should ensure implementation of the objectives and tasks of internal audit in full and in compliance with requirements of the Standards.

Policies and procedures regulating activities of the IAS should not contradict to the requirements of the corporate standards of the Fund in area of internal audit.

If corporate standards of the Fund in area of internal audit do not regulate certain issues of the activities of the IASs, relevant policies and procedures should be developed in compliance with requirements of Standards, as well as based on the recommendations of the Fund on the internal audit.

12. The Internal Audit Service operates on the basis of a risk-oriented annual audit plan approved by the Board of Directors. The results of the audit reports and key detection should be quarterly submitted to the Board of Directors.

The Head of the IAS takes into account a concept of risk management adopted in the company, as well as applies his own judgment about risks formed after consultancies with the Executive Body and the Audit Committee.

Action plan of the IAS should be based on the formalized risk assessment carried out at least once a year. Head of the IAS should ascertain and take into account expectations of the Executive Body, Audit Committee and the Board of Directors and other stakeholders in relation to the opinion and conclusions of the internal audit.

Terms and procedure for reporting to the Committee and Board of Directors should establish in Regulations on the IAS. The IAS at least once a quarter reports to the Board of Directors on the implementation of the annual audit plan, results of audit, key discoveries and recommendations. The Board of Directors shall ensure timely consideration of reports of the IAS, the control over the compliance of audit recommendations with goals and objectives of the internal audit.

13. In carrying out its activities, the IAS should assess the effectiveness of the internal control and risk management systems, assess corporate governance with the use of common standards of activities in the area of internal audit and corporate standards and recommendations of the Fund in the field of evaluation of corporate governance, effectiveness of internal control and risk management.

Assessment of the effectiveness of the internal control system includes:

1) analysis of compliance of the objectives of business processes, projects and structural units with the objectives of the Organization, audit of reliability and integrity of business processes (activities) and information systems, including reliability of procedures against illegal actions, abuse and corruption;

2) audit of authenticity of accounting (financial), statistic, management and other reporting, determining degree of compliance of the results of activities of business processes and structural units of the organization with set objectives;

8) interaction and coordination of activities with the supervisory bodies of subsidiaries on planning and auditing and revisions, and methodological provision of the IAS, audit commissions of the subsidiary organizations.

14. The Head of the IAS must develop and maintain the warranty and quality assurance program that covers all activities of the internal audit and provides the obligation to carry out internal and external evaluation of the IAS performance.

Evaluation of the effectiveness of the IAS, its Head and staff is carried out by the Board of Directors on basis of the consideration of IAS's reports, observance of terms of an annual audit plan and reporting, conformance evaluation of reports to the standards and IAS internal regulatory documents.

Quality assurance and improvement program is being developed in order to assess the compliance of IAS activities with the international standards of internal audit. Within the program, there is a regular internal and external assessment (concerning compliance with the Standards, Code of Ethics of the Internal Auditors) provided, as well as an assessment of the efficiency and effectiveness of the internal audit and the identification of opportunities for improvement of the activity.

Chapter 7. Transparency

1. In order to observe interests of the Stakeholders, the Fund and the Organizations timely and fairly disclose information on all important aspects of its activities, including the financial state, results of operations, ownership and management structure.

2. The Fund and Organizations shall timely disclose information prescribed by law of the Republic of Kazakhstan and internal documents. Internal documents determining the principles and approaches to disclose and protection of the information as well as a list of information to be disclosed to the Stakeholders should be approved in the Fund and Organizations. The Fund and Organizations determine the order of assignment of information to the categories of access, terms of storage and use of information, including the group of people who has a free access to information of commercial and official secret and take measures to protect its confidentiality.

The Fund and the Organizations should disclose information about its activities to Stakeholders in timely manner in compliance with the law of the Republic of Kazakhstan and internal documents.

In order to ensure consistency of information disclosure, the internal documents determining a list of information to be disclosed to Stakeholders, terms, order, method, forms of disclosure, responsible persons and employees indicating their functions and liabilities as well as other provisions regulating disclosure process should be approved in the Fund and Organizations.

In order to protect information which is a commercial and official secret, the Fund and Organizations in compliance with law of the Republic of Kazakhstan and the Charter should determine the order of classification of information to the access categories, terms of storage and its use. The Fund and Organizations determine the group of persons with right of free access to the information which is a commercial and official secret, and take actions to protect its confidentiality. Persons, who illegally obtained, disclosed or used information, which is a commercial and official

secret, should reimburse a loss caused and bear responsibility in compliance with laws of the Republic of Kazakhstan.

Establishing of a structural unit (or assignment of the function to the structural unit) on relations with shareholders and investors, the competence of which includes a collection, analysis, preparation of information that will be placed on Website of the Organization is recommended in the Organizations, which shares are listed at the Stock Exchange. The Head of that unit should be a person with practical work experience in financial sphere, good understanding of specificity of the sector in which Organization is operating.

Control over disclosure of information to the Stakeholders should be carried out in the Fund and Organization.

3. The Fund, Company and Organizations shares or interest bearing obligations of which are listed at a recognized Stock Exchange should post on its Website on a timely basis audited annual financial statements, prepared in compliance with IFRS, and also financial statements prepared in accordance with IFRS for the first quarter, for six months and the first nine months of the reporting period. In addition to primary forms of the financial statements, it is encouraged to disclose additional information about the financial condition of the Fund, Companies and Organizations, shares or interest bearing obligations of which are listed at the Stock Exchange.

Financial statement should comply with the IFRS and include income and loss statement, balance sheet, cash flow statement, report on changes in the equity capital. Annual financial statement, inter alia, should include explanations to the financial statement and to be approved by an independent auditor.

Financial statements of the Fund, Companies and Organizations which shares are listed at the Stock Exchange, should be quarterly posted on the Internet-website. The annual financial statement should be available on the Website of the Fund, Companies, Organizations, which shares are listed at the Stock Exchange, during 120 days from the end of the reporting period, and financial statement for six months, following the first quarter and for the first nine months of the reporting period should be posted on Website during 60 days from the end of the reporting period.

To enhance transparency of the activities and explanation of the results, presented in the financial statement, the Report of the management on results of the economic activities, which, inter alia, contains the factors and conditions that affect the results of economic activities should be disclosed.

Segment analysis, detailed income structure, structure of operating and capital costs, description of the methods of assets assessment, information about indicators of capital adequacy as well as information about subsidies and Government guarantees should be specified in addition to the financial statement.

4. The Fund and the Organizations should carry out the audit of the financial statements on annual basis through attraction of the independent and qualified auditor which, as a third-party person, provides objective assurance to the Stakeholders about

authenticity of the financial statement and its compliance with IFRS. Norms in part of audited statements are applied, if an audit of annual financial statement is prescribed by the legislation of the Republic of Kazakhstan and/or internal documents of the Organization.

Selection of the external auditor should be based on competition. An important role in the selection process should be played by the Audit Committee of the Board of Directors. Attracted external auditor should not provide a substantial amount of consulting services to the Fund and Organization that can be a threat to the independence of the external auditor, should not practice cases of hiring former members of the audit team earlier than two year after their discharge from the audit organization.
